

Declaration on materials and the environment

Product	Type	EYE202 F001
	Description	ecos DDC intelligent unitary controller
	Range	EY-modulo 2
Product usage	Typical energy consumption p.a.	87 kWh
	CE conformity	PDS 94.201
	Servicing, maintenance	PDS 94.201
	How the environment benefits	see last page
Risk to the environment in the event of damage	Fire protection as per	EN 60695-2-11, EN 60695-10-2
	Fire load ⁽¹⁾	9.7 MJ
	Parts containing halogen (causing corrosive smoke)	none
	Pollutive liquids	none
	Explosive substances	none
Packaging*	Cardboard PAP 21	42 g

⁽¹⁾ See **Remarks** on last page

*Directive 94/62/EC and follow-up document; decision 97/129/EC

Materials	Total weight of product ⁽²⁾	389.5 g	Safety data sheet	EU waste code**
Synthetics				
PC		166 g	Yes	20 01 39
Metal				
Steel, all alloys		0.5 g	Not required	20 01 40
Printed circuit board				
Printed board assembly; lead-free solder		223 g	Not required	20 01 40
Miscellaneous				
		g		
Special components				
Lithium battery (component on pcb)		15 g	Not required	20.01.34

N.B.:

Silicon content: all parts used are free of silicone

⁽²⁾ See **Remarks** on last page

**Directive 75/442/EEC and follow-up document; decision 2001/118/EC

Disposal**Product:**

For its disposal, the product should be treated as waste containing electrical and electronic equipment (electrical/electronic waste) and should not be disposed of as household waste. This applies in particular to the printed circuit board.

Fr. Sauter Ltd. observes the European directive 2002/95/EG (RoHS); the company's soldered products have been lead-free since 01.07.2006. Special treatment of particular components may, under certain circumstances, be either compulsory by law or ecologically advisable.

Packaging:

Recyclable

Observe local regulations and the latest applicable laws.

Special notes:

none

Remarks

⁽¹⁾ **Fire load, depending on type:**

none

⁽²⁾ **Weight, depending on type:**

none

How the environment benefits

- Can be disassembled for specialist disposal

Disclaimer: This declaration is solely for information purposes.

If circumstances arise, Sauter may change the above-mentioned specifications without prior notice. Fr. Sauter Ltd. expressly rejects any liability for damage occurring due to the above information.

Further information on environmental aspects in general and on disposal in particular can be obtained from the local Sauter agent.
